ACADEMIC DETAILS				
Course	Institute	University	Year	Score
B. Tech. (Computer Engineering)	Pimpri Chinchwad College of Engineering	Savitribai Phule Pune University	2026	7.75 (Till SE)
H.S.C	Arihant Jr. college, Bavdhan, Pune	Pune Board	2022	78.17%
S.S.C	Vidya Niketan English Medium School, Pune	Pune Board	2020	91.40%

TECHNICAL PROFICIENCY
<ul style="list-style-type: none">• Mongo Express React Node (MERN)• Object Oriented Programming (OOP)• Data Structures and Algorithm (DSA)• Database Management Systems (DBMS)• Software Engineering (SE)• Programming languages: C++, Java• Management Information System (MIS)

TECHNICAL PROJECTS
<p>❖ YouTube Clone:</p> <p>Developed a YouTube clone application using the MERN stack (MongoDB, Express.js, React.js, Node.js), focusing on building dynamic, responsive UIs and scalable backend architecture. Implemented user authentication and authorization with JWT, ensuring secure login/logout and role-based access. Designed and integrated RESTful APIs for video uploads, streaming, comments, and user interactions. Optimized the app for performance, including video compression and streaming.</p> <p>❖ Food Delivery App:</p> <p>Developed a food ordering application using the MERN stack to enable users to browse and order food. Built a responsive UI with React, implementing features like menus and order history. Designed and implemented RESTful APIs for user authentication and order management. Integrated MongoDB for storing user profiles, food items and orders. Implemented secure user authentication with JWT and role-based access for customers and admins.</p>

CERTIFICATIONS
<p>Udemy - Mastering Data Structures and Algorithms using C and C++</p> <p>Udemy - The Complete 2024 Web Development Bootcamp</p> <p>Udemy - Complete A.I. and Machine Learning, Data Science Bootcamp</p>
